Welcome to ADVANCED BIOGEOMETRY!

The Advanced Training is the next step for the Foundation student of BioGeometry, and one that will open new doors and possibilities!

You are now familiar with the amazing concepts and powerful techniques of BioGeometry and the possibilities they can open in your life. Now **Advanced BioGeometry** offers you the opportunity to take those awareness and skills you have acquired to higher levels, as well as of course learn more new material, techniques and tools. The benefits:

1. **Broaden your understanding** of the concepts that make BioGeometry work, and the metaphysical and spiritual principles behind it.
2. **Acquire new powerful methods** for measuring energies and harmonising people, spaces and situations
3. Learn the **powerful tools that will now be available to you as an advanced student** and which offer great possibilities to your BioGeometry work.
4. Last but not least, the Advanced Training will **open new doors in your BioGeometry journey**, such as making you eligible to attend all Special Topics events organised by Dr. Karim, and more importantly, the possibility of going on to the specialised Practitioner training.

EXPANDING OUR AWARENESS

In Advanced we delve deeper the concepts and principles of what makes BioGeometry work, in terms of for instance of

- the One Subtle Harmonizing energy which we identify and connect with through the BG3
- the distinction of the individual and collective Perceived Realities vs the undefinable Absolute Reality
- the planes and sub-planes of nature which relate to energy and consciousness, and which extend beyond the physical into the spiritual realms
- upgrading the definition of the body's energy centres by addressing the important three spiritual chakras that exist 'above' classic seven.

...AND RE-DEFINING BIOGEOMETRY

To the advanced student, BioGeometry becomes more than just knowing how to swing a pendulum or where to place an L or a stand. True BioGeometry becomes the endeavour of, to use Dr. Karim's definition, 'living in excellence' or living in multi-dimensional harmony. This is the true core of every spiritual teaching in the world, and was exemplified in ancient Egypt by the Ideals of Ma'at and the concept of the weighing of the heart after death.

MORE REFINED ENERGY MEASUREMENT

One of the most important features of Advanced BioGeometry is **the Human Archetype Ruler**. Based on Dr. Karim's deciphering of a once secret energetic template encoded within the ancient Egyptian temples, this amazing tool will literally open up new dimensions of energy measurement in your work. Whether you want to measure the BG3 in a room, someone's chakras, the energy of an organ or body part, or the effect on your energies of a particular painting or gemstone in the room, and so on, HAR can enable you to do this. Moreover you can even measure at a specific plane or sub-plane of nature.

NEW TOOLS

With the HAR you receive three plexiglas strips, including those for calibrating the Ruler to the Planes of Nature, plus two other sets of strips in laminated car, for working with the Sub-Planes and working with body parts and organs.

We learn several other advanced tools. **The Dial** can be used to balance out spaces or situations with the quality of angle, including doorways, rooms, toxic surfaces, etc.

BG28. You will now have the power of the BG28 in your hands, an non-polarised emission of BG3 which can bring about a fast and powerful clearing of energy and correction of imbalances.

We address the various stands of BioGeometry, including the **Corner Stand**, **Hemberg Emitter**, **Outdoor Stand** and **Space Harmonizer** to neutralize electro-magnetic and geopathic energies and help harmonize spaces.

The **Brain Stands** promote synergy of the left and right brain hemispheres and BG3.

The **Material Balancing Wheel** introduces powerful BG3 into a space, and can also be used for people.

Using the **Modified Turenne Ruler** (included free), we can help assess the resonance between objects, spaces, persons etc

...AND TECHNIQUES

We start with a **revision of the key topics** to ensure your proper understanding, and **core techniques** such as BG3 testing (plus determining strongest signal); the BG Ruler; calibration to personal wavelength and BG3; testing objects.

Planes of Nature. We address ancient concepts of the multi-part geometry of the soul; shapes that resonate with each plane and how to use them including a special chart for a technique of testing on which plane a problem is located or originates from using the IKUP.

Power Spots. What they are, their energy and consciousness, connecting to them; locating power spots in the sky; making a simple BG3 emitter tube. In a fascinating technique, you will **create a 3D grid that links earth to sky power spots** and learn how to do it with your locality.

We work with **the Net**, a powerful and very versatile technique that can be used to energetically cleanse anything from our food to a person or an entire building.

Repairing the Steps of our life. We take this technique to deeper levels of healing internal energy blocks from collective matrixes, individually and as a group, using the BG28.

We also touch upon **detrimental energies** including gridlines and working safely with them; deeper ramifications of electromagnetic energies due to compression waves; invasive energies; emotions and negativity; and Dr. Karim's special prayer of activating the Light within everything.

Harmonising with Numbers is a simple but effective technique from Foundation which we will revise. However we also take it further by combining it with the powerful Biosignatures by making use of **Bio-Numerals**.

BioGeometry of the Body. In this interesting section we look at energetic aspects of the human body, including shape resonances, techniques with the silent sound type of tongue techniques, the basis of which were used in ancient healing and initiation rites. We also look at how different positions activate different chakras and energy centres as exemplified by the appearance on chakras on a wooden artist's mannequin.

Finally we cover several **Advanced BioGeometry Design Principles**. These include the use of Harmonic Tables and a special Excel file provided to make up your own tables; the Scaling system for placing walls and objects to harmonize gridlines, BG3 of arcs, using door and window placements to balance Energy Keys.

LESSONS IN THE ONLINE ADVANCED TRAINING

Note: all the material will be covered, but what is addressed in which Lesson may be subject to variation.

INTRO HOW TO USE THE COURSE; GETTING STARTED

How to use the course, download the lessons and join in the live sessions. Tips on studying the material and practicing the techniques.

LESSON 1 REVIEW OF IMPORTANT CONCEPTS AND TECHNIQUES OF FOUNDATION

The Instructor; The Founder; What is BioGeometry. Research & Projects; Mankind's serious situation; Hazards of the wireless age; Our worldview & mission; Qualitative vs quantitative science; Humanizing technology; The shift in human consciousness; The physics of quality; Process of perception; Sensory scales.

LESSON 2: MEASURING RESONANCE: THE MODIFIED TURENNE RULER. The Law of Similars; Basic Pendulum technique for demonstrating Resonance; The Turenne Ruler and its polariser modification; *Finding percentage resonance between two objects/persons; Measuring resonance between Witnesses.*

LESSON 3: WORKING WITH ANGLES: THE BIOGEOMETRY DIAL

The power of angles; Angles and angels; The crux of Rotating Objects; The Dial; How the dial works and how it differs from the horizontal pendulum dial; Uses of the BioGeometry Dial; Direction of Emission; *Three techniques: 1. Calibrating the Dial for BG3 Emission; 2. Calibrating the Dial to Correct an Imbalance; 3. Combining correction with BG3 Emission.* Correcting Kitchen Tops and Doorways; Correcting a Gridline with the Dial; Making Use of the Corner and Threshold Principles with the Dial; Universal BG Point 56.5;

LESSON 4: THE CORNER STAND WITH DIAL, HEMBERG EMITTER, OUTDOOR STAND

The Principle of the Corner Stand; Adjusting the Corner Stand; The Hemberg Emitter; 2 Uses - Directional and Overlay Solutions; Adjusting the Hemberg emitter for Directional Solutions; Fixing the Emitter; Adjusting the Hemberg Emitter for Overlay Use; Correcting Energy Keys; Using and Adjusting the Outdoor Stands; The Use of the dials on Stands.

LESSON 5: THE MATERIAL BALANCING WHEEL

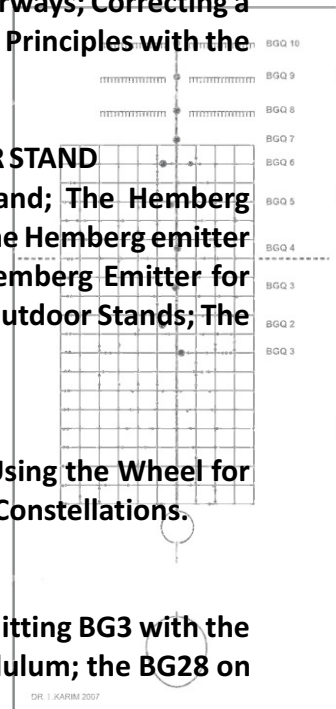

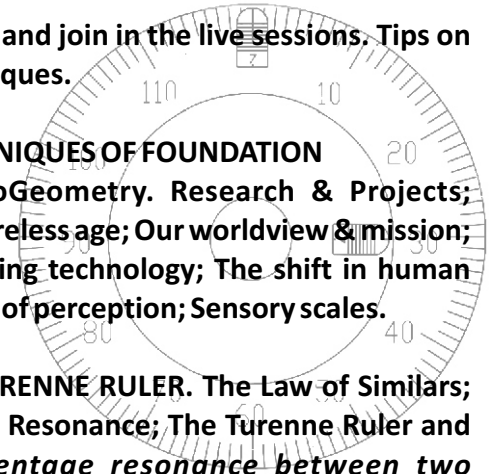

Principle of the Wheel; Introducing samples into the Wheel; Using the Wheel for Building samples; Using with a Human Being; Using with Group Constellations.

LESSON 6: BG28 DIAL SYSTEM

Three levels of Radiesthesia; Polarised vs Unpolarised BG3; Emitting BG3 with the BG28 pendulum; Correcting an Imbalance with the BG28 pendulum; the BG28 on Space Harmonizer Stand; Using the Space Harmonizer Stand.

LESSON 7a THE HISTORY & ITS DEVELOPMENT OF THE HUMAN ARCHETYPE RULER. What is the Human Archetype? The Human Archetype Template in Ancient Egyptian temple science; Ancient Egyptian 2D 3D Drawing; Living Statues;

LESSON 7b THE HUMAN ARCHETYPE RULER: The Ruler components; The egg shape; 10 BGQ Points; The Central Line; the Three Spiritual Chakras; Planes of Nature Strip; the Line Strip; Additional Practitioner Strip;

LESSON 8a: USING THE HUMAN ARCHETYPE RULER - 1: MEASURING BG3 & CHAKRAS. Two methods for using the HAR; *Measuring the 10 BGQ Points*; BGQ Points and the 10 Chakras; the Humunculus; *Measuring Chakras Energy*;

LESSON 8b: USING THE HUMAN ARCHETYPE RULER - 2: MEASURING WITH VARIABLES & PLANES OF NATURE. Different variables possibilities; *Measuring Effect of a Variable on the Subject*; Using the Organ Strips; *Measuring at different Planes of Nature*. Example: measuring effect of different rooms on the subject's chakras or organs.

LESSON 9: USING THE HUMAN ARCHETYPE RULER - 3: THE HAR AS A TRANSMITTER. The two axis of the Human Archetype; completing the axis; the Line Strip; *Transmitting the Human Archetype* to a person, space, organ, etc; *Transmitting a Dial setting*; *Transmitting a Biosignature*; *transmitting at a specific Plane of Nature*.

LESSON 10: THE LEFT & RIGHT BRAIN STANDS. The Torus energy; the two toroidal fields that make up the human consciousness; movement in time and space; movement through levels of awareness; left & right brain characteristics; *left & right brain synchronising with the stands*; *BG3 synchronising with the stands*.

LESSON 11. THE NET. An ancient method for energetic cleansing; Masters of the Net; Procedure of the Net; Motion vs Visualisation methods; Using the Net to cleanse food and water; Cleansing people; Cleansing spaces; "Seeing" the results.

LESSON 12: PLANES & SUB-PLANES. The Planes of Nature; the invisible realms, from science to metaphysics to science; the Planes in the Energy Wave and in relation to physical reality; the multi-dimensional energy wave; significance for personal work; the Strips; Checking and Measuring Sub-Planes; Using Tangents; Correcting Sub-Planes with the Strips; Correcting Sub-Planes with the Card; using the sun and moon.

LESSON 13: NUMBER BALANCING WITH BIOSIGNATURES. Review of Balancing with Numbers method; use of spot numbers vs BG Numbers; Bio-numerals; Review of finding imbalances method; Correcting Imbalances with Biosignatures.

LESSON 14: CREATING A 3D POWER SPOT GRID CONNECTED WITH THE SKY. The nature of Power Spots; a history of mankind's relationship with Power Spots; Power Spots in the Sky; Procedure Part 1: Finding Power Spots and Creating a Terrestrial Power Spot grid; Part 2 - Creating a BG3 Tube. Part 3 - Finding a Power Spot in the Sky; Part 4 - Connecting the Terrestrial; Power Spot Grid to the Sky.

LESSON 15: BIOGEOMETRY OF THE BODY. A sacred container; the Forming Process of the Human Body; the mannequin's chakras; the different positions for opening chakras; the ancient Egyptian posture for protecting the lowermost chakra; silent sound tongue position technique; the Forming Process of disease.

LESSON 16: ADVANCED DESIGN PRINCIPLES. The Harmonic Tables and how to use them; the Harmonic Table Excel program; the Forming Process of Nature; Balancing Energy Keys with door and window placements; corrections to L plans; stairs and corners; The BG Qualitative System; Rings of Gold; The BG Crossover Principle; correcting Grid-lines with Design Principles & placements; Wave Turning Points Principle; the Lakhovsky Principle; BG3 in circles, arcs and curves; examples of radiesthesia in architecture

WHAT DO I NEED TO DO THE ONLINE TRAINING COURSE?

The coffee is optional, but here's what you definitely need...

HARDWARE: A computer or tablet with a functional internet connection, equipped with camera and microphone for the Live Sessions, and a printer to print out the charts from PDF.

SOFTWARE: PowerPoints and Videos are viewed in the usual way you watch YouTube videos on your device, and PDFs in the same way you are viewing this brochure. Zoom is easily downloaded and used, we will supply full instructions.

BOOKS: By now you should have read Dr. Karim's books *Back To A Future for Mankind* and *BioGeometry Signatures*. If not, please do as they are essential reading for every student!

THE ESSENTIAL TOOLS: You will need to buy the following four tools for this training. These can be bought from us with your trwegisdtration (see registration form).

1. *IKUP Pendulum*. Used to measure personal wavelength and affinity, useful for all kinds of energy work, esoteric research, etc as it connects to all the planes of nature.

2. *The BioGeometry Dial* a small but versatile device which lends itself to all kinds of correction techniques, as well as providing valuable sensitivity practice in finding correction and BG3 points.

3. *The Hemberg Emmitter*. A useful device both for Direct Solutions of incoming radiation such as antennas and masts, as well as Overall Solutions.

4. *Human Archetype Ruler*. This amazing tool opens a whole world of possibilities for measuring energies including BG3, chakras, organs, planes of nature, etc.

ONLINE LIVE SESSIONS SCHEDULE

The Live Sessions are a crucial part of the course as they will feature almost six hours of contact time with your instructor Kris each week. The objective of these sessions is to introduce each Lesson, give you the opportunity for any questions you have from viewing previous Lessons at home, and enable your techniques to be supervised and assessed. Questions can be sent by email in advance, or asked spontaneously as they arise in the sessions.

The table below shows the dates of each Live Session. In the days in between you will be receiving the Lessons and viewing them in your own time at home. Rather than identify which Live Session addresses which Lessons, we will leave this format open as it may change according to need, class pace etc, but naturally all the Lessons and material will be addressed accordingly.

Sun 7 Feb	Informal Meet & Greet
Mon 8 Feb	Live session 1
Wed 10 Feb	Live Session 2
Sat 13 Feb	Live Session 3
Mon 15 Feb	Live Session 4
Wed 17 Feb	Live Session 5
Sat 20 Feb	Live Session 6
Mon 22 Feb	Live Session 7
Wed 24 Feb	Live Session 8: conclusion

It is planned that the Online Live Sessions will start at 7pm - 9pm Rome time (Pacific Time / USA West coast 10am-Noon, USA East coast 1pm-3pm)

The aim is to adhere to the times as much as possible, but times are subject to amendments).

Duration of each session varies according to the content of the Lessons, the objective that need to be addressed and the number of questions to be answered, but normally it is between 1.5 to 2 hours each

How is the Online Training structured?

This Online Training is delivered over 16 lessons on four media:

1. Each Lesson is a recorded PowerPoint presentation with voice and video commentary.

The relationship between wind and shape - 3

Even solid shapes are impregnated by the information in the wind. An information exchange or communication occurs which changes both wind and shape. Even in water we find deep level and peripheral information.

2. With some lessons there is a Tutorial which teaches and demonstrates the technique in use.

3. Eight Live Online Sessions on scheduled dates (pg 7) on Zoom in which Kris will review the previous Lessons, answer questions and assess students' progress.

4. Each Lesson has the PowerPoint in PDF form, plus the necessary charts etc you need to print.

The PDFs download to your hard-disk for you to keep, while the Lessons and Videos can be viewed as often as

F.A.Q.

. Does one need to be computer savvy to do an online course?

If you can click on a link to watch a video, and if you have ever used Skype or video chat, you are already there. The program we use for the online sessions is Zoom, and it is easy to use, and full instructions will be provided.

Will all the material remain permanently available when the training is over?

A challenge of any online training is to ensure that students leave the course with as good a knowledge of the material as live course participants do. In a live training, one learns the material in the correct sequence and within the time frame of the duration of the course. To replicate that same kind of focus, we are posting the Lessons online in sequence, and they will be available for viewing any number of times for three months after the end of the training. You will however have the PDF of each slide lesson to keep permanently. These measures are to help ensure our students leave the course with a good level of understanding and competence in BioGeometry.

Can the training be shared with others?

No. By registering for the training, the student formally undertakes not to share with anyone else the passwords received to access the material, or the material itself. Any indication on the system that others have been granted access to a student's Lessons will regretfully result in revoking that student's access to the course material and losing his/her standing in the BioGeometry community.

Do I need to have my camera on during Live Sessions?

Yes, for two important reasons. Firstly to have a sense of a class group, as learning is always helped by friendly interaction. But also, your camera can enable the instructor to assess your progress with the techniques. So learn how to adjust the angle of your camera when requested so your hands using the tools will be in clear view. There will be full instructions on this.

Is there a career track I can follow in BioGeometry?

Yes and this training takes you right up to the door as it gives you the pre-requisite to join the specialised BioGeometry Home Environmental Balancing Practitioner training. Some people do this for furthering their own skills, but you can also choose to be licensed by the BioGeometry organisation to promote yourself as a working Practitioner offering paid services to balance people's homes, a service whose need is only increasing with time. After having done Advanced, you will also be able to attend the live Special Topics events organised from time to time by the founder.

F.A.Q. (continued)

How well should I know the Foundation material to do Advanced?

You should have understood the main concepts and can do these core techniques: detecting BG3 including discerning difference between stronger and weaker BG3 with the pendulum, (e.g. as in Object Rotation), using the BG Ruler, Finding Personal Wavelength and Testing Objects.

Does the training involve exams?

Not during the course but within two weeks after the training, you will need to submit five assignments chosen from a list. If you followed the training, you will have no difficulty with these, but in case you do there will be allowance, within obvious limits, for you to amend or re-submit accordingly so as to be successful in the training and receive your certificate.

I am undecided between taking an online training or attending a live one. What's the difference?

The same material is covered but each format naturally has its unique qualities. Live training gives an intense 5-day immersion in the subject with the instructor and the class. The online is more focused on personal study at home in your own home, and contact with the instructor is in the live sessions and email, it involves no travel and can be slotted into one's family or work life.

How can I ask questions during the training?

One scope of the Live Zoom Sessions is for the Instructor to answer questions. You can email technical questions in advance so that they will be answered during the session, so all the class benefits from the answer. If a question needs to be answered personally, it will be done by email. After the training, you can still email questions to the instructor.

When will I need to have the compulsory BioGeometry tools?

We will send you the three tools described on page 6 (unless you opt to pay only the registration and buy the tools yourself) so please ensure you register in good time to receive those by the time the training starts.

What if I cannot make it to a Live Session

In a live training one either makes it to a lesson or misses it, and the same applies with Live Online Sessions. Although no new material will be given in the Sessions that is not covered in the recorded Lessons, nonetheless they are crucial for consolidating what one studied in the previous lesson as well as answering questions.

Is it possible to buy Advanced BioGeometry items?

Once you have done the Advanced Training, you will be able to buy advanced BioGeometry items (e.g. the various stands, BG28, Material Balancing Wheel, etc) from suppliers such as BGES Canada, BioGeometry Europe and other. From time to time we also carry small quantities of these items for sale.

YOUR INSTRUCTOR

"Ready to take your techniques to new dimensions? Time to upgrade to Advanced BioGeometry! Join me online this February!"

Kris Attard is an international teacher from Malta who has been involved in the study of ancient wisdom and holistic science for many years. He is one of a handful of BioGeometry Instructors in the world, having been certified by the founder of BioGeometry Dr Ibrahim Karim in Egypt. Kris has been training people since 1995 and has conducted workshops in 17 countries on intuition, sacred geometry, symbols and related subjects. His clients have ranged from public to specialised groups and large companies. He was senior instructor of MindScape intuition training for several years, and his training background has included various methods of mind dynamics, NLP, gestalt psychotherapy, energy medicine, traditional Feng Shui and various spiritual philosophies. He is the author of the MindScape Manual and is publishing exclusive research on the sacred geometry of the ancient Neolithic temples of the Maltese Islands.

ONLINE BIOGEOMETRY ADVANCED TRAINING 8 - 24 Feb 2021 Training fees & details

Requirements: This training is open only to students who have completed the full BioGeometry Foundation Training with a certified instructor (*certificate or other proof of the training will be requested*).

Course fee: Total training & essential tools investment = €1380, consisting of:

- **Registration = €983** (Price includes access to all 8 Live Sessions, access to view Lessons and Videos an unlimited number of times for three months, permanent download of all PDFs of slides, charts, Biosignatures, etc.)
- **Essential tools = €350** (A discount off the European € prices, valid ONLY for these tools bought as part of this Online Training).

IKUP Pendulum-Emitter	= €58
Human Archetype Ruler	= €208
The BioGeometry Dial	= €20
The Hemberg Emitter	= €62

BG28 Pendulum Disk (not essential but you will want it!) = €8

Free shipping to most places in Europe, USA, Asia and Africa until our stocks last. (Note: If due to COVID restrictions our shipping providers are not able to deliver to some country, there may be a surcharge)
If you already own any of the above items, simply use the Registration Form to book for the course without those items you already have.

- **Repeat participants** who have already done Advanced training = €470
(*Note: certificate or other proof of the training you did must be provided*)

Please contact Kris Attard at hermetic222@gmail.com or +356 9944 4106 for registration form & details for payment transfer.
