

**BioGeometry® Foundation and Advanced Training Student Terms and Conditions**

1. BioGeometry is a scientific methodology of various techniques and shapes developed to provide qualitative environmental energy exchange balance for living systems. This paradigm is revolutionary to Western science, and therefore absolutely no claims regarding BioGeometry™ are made or implied, and all materials and instruction are for informational and private use purposes only. Student will not have any claims regarding BioGeometry™ and shall not be entitled to practice or implement any concepts of BioGeometry for the benefit of any third party. Use of the information provided during the training shall be for Student's own private and personal use, without any disclosure to any third party.
2. Students may not claim personal affiliation with any BioGeometry company, or any instructors or affiliated organizers without written confirmation by BioGeometry of such affiliation. Students may not advertise or represent themselves as BioGeometry licensed practitioners or instructors, or as representatives or agents, in any capacity, of BioGeometry. Students acknowledge that the BioGeometry Foundation and Advanced levels are part of the BioGeometry personal development curriculum and does not grant a professional certification or the license to offer any BioGeometry commercial services, or lectures, or workshops, or professional services and/or advice
3. All BioGeometry materials, including but not limited to methodologies, techniques, know-how, ideas, inventions, terms, patterns, designs, equipment or products may not be used for commercial purposes without BioGeometry's express written consent. These materials are to be used and handled by you only to the limited extent necessary for your private and educational use. These materials are commercially valuable, proprietary and an exclusive product of Dr. Karim / BioGeometry Energy Systems Ltd. (BGES). Dr. Karim & BGES claim and reserve all rights and benefits afforded under patent, trademark, copyright, industrial design and trade secrets law and international treaties.
4. Students may not diagnose or prescribe treatment of any illness on the basis of BioGeometry training. Students may not make any medical claims regarding BioGeometry. BioGeometry is not a form of medical diagnosis or treatment, but is long-term environmental support for the body's energy system and all types of treatment. Under no circumstances should BioGeometry products replace professional medical treatment.
5. Participation in official BioGeometry research projects or experiments may only be pursued with a written consent from BGES and/or collaboration, so as to utilize the optimum BioGeometry™ knowledge.
6. Students must always clearly distinguish between which ideas and techniques come from BioGeometry and those, which come from personal experience or other bodies of work. The science of BioGeometry™ will only be practiced under that name of "BioGeometry. No student shall do anything detrimental to the reputation and image of the company, the science of BioGeometry™, the products, licensees, trademarks and trade names.
7. Instructors reserve the right to deny admittance to any person to this course, or to ask a student to leave the training at any time and for any reason. The pro-rated unused portion of their tuition will be returned to the student.
8. Students understand that this is a binding legal agreement. Any student found in violation of this agreement will not be allowed to attend future BioGeometry events and may be subject to legal action. BioGeometry Energy Systems Ltd. claims and reserves all rights and benefits afforded under patent, trademark, copyright, industrial design and trade secrets law and international treaties. Signature of this BioGeometry™ Foundation Training Student Agreement is required before participation in any BioGeometry™ courses. Thank you for your cooperation.

I, the undersigned, have read, understand, and agree to all the conditions stated in this Student Agreement. I take full personal responsibility for all research and/or experimentation I may conduct with BioGeometry™ concepts, tools, and/or methods.
